

RE-BALANCE

2022 ACHIEVEMENTS

Post-pandemic, this year was tough for Re-Balance, so we directed our focus to fewer projects but the impact was not any less.

1 Continuation of Kee Khobor Projects

Founders travelled the 8 divisions of Bangladesh, 3493km, collecting stories from local projects and initiatives.

Launched the Kee Khobor podcast, 23 short episodes that can be found on Spotify. This concluded the project: 50 stories for Bangladesh's 50th independence.

Celebrated British Bengali heritage, 1 year on from the Kee Khobor launch in partnership with Restless Beings

2 Grameen Caledonian College nurses pass exams

Re-Balance sponsors 3 nurses in Bangladesh, who have all passed their 1st year exams! This year Re-Balance invested £3438 to the nurses educations through Grameen Caledonian College.
